See “Use of Non-GAAP Financial Measures” and “Reconciliations of GAAP and non-GAAP results” included elsewhere in this earnings release.

“We ended the second quarter of 2018 with net revenues exceeding the high end of our guidance range,” said Ms. Yanlai Shi, Co-founder, Director and Chief Executive Officer of RYB. “Our results were driven by steady enrollment growth in our directly operated kindergartens and increased franchise fee revenue. Thanks to the parents who reacted positively to our enhanced security and safety standards and educational services quality, as of June 30, 2018, the total student enrollment at our 90 directly operated kindergartens grew to 23,526 and our total number of franchise play-and-learn centers in operation grew to over 1,000.

“During the quarter, we continued to focus on improving teaching quality with more stringent teacher recruitment requirements and training standards. In addition, at RYB, security and safety at our facilities continue to be paramount. This quarter, we appointed a Chief Security and Safety Officer, set up a security and safety oversight committee with key senior management members and set up a central surveillance control room at our head office. Furthermore, we also conducted extensive security and safety training throughout our network. Finally, toward the end of the second quarter, we started to accept new franchise applications for our play-and-learn centers after introducing enhanced franchise service standards, more stringent franchisee screening and acceptance criteria as well as a new revenue-sharing model. We believe our strategy of selective growth, while maintaining high standards for quality and safety, positions us well to meet the strong demand for premium kindergarten and early-childhood education services in China. Through our dedication to educational and services quality and the safety and security of our students, we are committed to sustaining healthy, long-term growth going forward,” Ms. Shi concluded.

Ms. Ping Wei, Chief Financial Officer of RYB added, “During the second quarter, we delivered a 25.6% year-over-year increase in net revenues. Our steady growth in enrollment at our directly operated kindergartens was a key contributor. In addition, we adopted Topic 606 "Revenue from Contracts with Customers" (ACS 606) applying the modified retrospective method to franchise contracts not completed as of January 1, 2018, which requires the recognition of initial franchise fee revenue over the service period while the prior recognition standard was upon the official start of a franchisee’s operation. This resulted in higher initial franchise fee revenue generated in the quarter, which was partially offset by lower revenue from existing franchisees as a one-off fee reduction and free or discounted products and services offered to them at the beginning of this year continued.”

Second Quarter 2018 Financial Results

Net Revenues

Net revenues for the second quarter of 2018 increased by 25.6% to \$47.5 million, from \$37.8 million for the same quarter of 2017.

Service revenues for the second quarter of 2018 increased by 35.2% to \$43.6 million, from \$32.3 million for the same quarter of 2017. The increase was partially due to an increase in the number of students enrolled at the Company’s directly operated kindergartens as enrollment at existing facilities continued to grow and newly acquired kindergartens also contributed to the increase. Franchise services revenue

also increased significantly in the quarter due to the recognition of initial franchise fee revenue over the service period as the Company adopted Topic 606 "Revenue from Contracts with Customers" (ACS 606) applying the modified retrospective method to franchise contracts not completed as of January 1, 2018. The increase was partially offset by lower revenue from existing franchisees as a one-off fee reduction and free or discounted products and services offered to them at the beginning of this year continued.

Product revenues for the second quarter of 2018 decreased by 30.2% to \$3.9 million, from \$5.6 million for the same quarter of 2017. The decrease was primarily due to a decrease in the amount of merchandise sold through the Company's franchise network as the Company continued to pause the expansion of its franchise operation for most of the quarter.

Cost of Revenues

Cost of revenues for the second quarter of 2018 was \$31.6 million, an 11.0% increase from \$28.5 million for the same quarter of 2017. Cost of revenues for services for the second quarter of 2018 was \$29.4 million, compared with \$25.6 million for the same quarter of 2017. The increase was primarily due to an increase in staff compensation at the Company's directly operated kindergartens and higher operating cost as the Company continued to expand its kindergarten facilities network. Cost of revenues for products for the second quarter of 2018 was \$2.2 million, compared with \$2.9 million for the same quarter of 2017, the reduction was in line with the decrease in revenue.

Gross Profit and Gross Margin

Gross profit for the second quarter of 2018 increased by 69.9% to \$15.9 million, compared with \$9.4 million for the same quarter of 2017.

Gross margin for the second quarter of 2018 was 33.5%, compared with 24.7% for the same quarter last year. The increase in gross margin was primarily due to the increased franchise fee revenue partially offset by the increase in staff compensation and operating costs at the directly operated kindergarten facilities.

Operating Expenses

Total operating expenses for the second quarter of 2018 were \$8.4 million, a 139.3% increase from \$3.5 million for the same quarter of 2017. Excluding share-based compensation expenses, operating expenses were \$6.2 million, an increase of 85.0% from the second quarter of 2017.

Selling expenses for the second quarter of 2018 remained flat at \$0.4 million, compared with \$0.4 million for the same quarter of 2017.

General and administrative ("G&A") expenses for the second quarter of 2018 were \$8.0 million, a 156.2% increase from \$3.1 million for the same quarter of 2017. Excluding share-based compensation expenses, G&A expenses were \$5.8 million for the second quarter of 2018, a 96.4% increase from \$3.0 million for the same quarter of 2017. The increase in G&A expenses excluding share-based compensation

expenses was primarily due to higher payroll expenses and additional expenses incurred in professional service fees. The share-based compensation expenses included in G&A expenses were \$2.2 million for the quarter.

Operating Income

Operating income for the second quarter of 2018 was \$7.5 million, compared with \$5.8 million for the same quarter last year. Adjusted operating income² was \$9.7 million for the second quarter of 2018, compared with of \$6.0 million for the same quarter of 2017.

Net Income

Net income attributable to ordinary shareholders of RYB for the second quarter of 2018 was \$4.7 million, compared with \$4.3 million for the same quarter of 2017. Adjusted net income attributable to ordinary shareholders of RYB, which excludes the impact of \$2.2 million of share-based compensation expense for the second quarter of 2018, was \$6.9 million, compared with \$4.5 million for the same quarter of 2017.

Basic and diluted net income per American depositary share (“ADS”) attributable to ordinary shareholders of RYB for the second quarter of 2018 were \$0.16 and \$0.15, respectively, compared with \$0.18 and \$0.17, respectively, for the same quarter of 2017. Each ADS represents one Class A ordinary share.

Adjusted basic and diluted net income per ADS attributable to ordinary shareholders³ of RYB for the second quarter of 2018 were \$0.24 and \$0.22, respectively, compared with \$0.19 and \$0.18, respectively for the same quarter of 2017.

EBITDA⁴ for the second quarter of 2018 was \$10.1 million, compared with \$7.3 million for the same period of 2017. Adjusted EBITDA⁵ for the second quarter of 2018 was \$12.3 million, compared with \$7.4 million for the same quarter of 2017.

⁵ Adjusted EBITDA is a non-GAAP financial measure, which is defined as net income excluding depreciation, amortization, interest expenses, income tax expenses, and share-based compensation expenses. See “Use of Non-GAAP Financial Measures” and “Reconciliations of GAAP and non-GAAP results” included elsewhere in this earnings release.

As of June 30, 2018, the Company had total cash, cash equivalents and term deposits of \$143.0 million, compared with \$158.7 million as of December 31, 2017. The decrease in cash balance was primarily driven by operational cash outflow, capital expenditures of \$2.4 million and acquisition payments of \$2.3 million in the quarter.

Operating Cash Flow

Net cash outflows from operating activities were \$10.6 million during the second quarter of 2018, compared with \$4.9 million net cash inflows from operating activities during the second quarter of 2017. The cash outflow in the quarter was primarily driven by a decrease in prepayment from customers as the Company continued to pause the addition of new franchisees for most of the quarter and the decrease in deferred revenue due to the timing of tuition fee payments at the directly operated kindergarten facilities. The decrease was partially offset by the operating profits generated in the quarter.

First Six Months of 2018 Financial Results

Net Revenues

Net revenues for the first six months of 2018 were \$76.2 million, compared with \$64.3 million for the first six months of 2017.

Services revenues for the first six months of 2018 were \$69.6 million, compared with \$56.2 million for the same period last year. The increase was partially due to an increase in the number of students enrolled at the Company's directly operated kindergartens. Franchise services revenue also contributed to the increase due to the recognition of initial franchise fee revenue over the service period as the Company adopted Topic 606 "Revenue from Contracts with Customers" (ACS 606) applying the modified retrospective method to franchise contracts not completed as of January 1, 2018. This impact was partially offset by lower revenue generated from franchise operations, as a one-off fee reduction and free or discounted products and services offered to existing franchisees at the beginning of this year continued.

Products revenues for the first six months of 2018 were \$6.6 million, compared with \$8.1 million for the same period in 2017.
